Sr. IDP

FLAGSHIP EVENT
INDUSTRY DEFINED PROBLEM

INTRODUCTION

Industry defined problem (IDP) is one of the most anticipated events of Vortex – The Chem-fest of Institute of Chemical Technology (formerly known as UDCT). Having a proud lineage of YRC and YICC, IDP is the flagship event of Vortex. This event requires the participants to come up with innovative and sustainable solutions for industry problems provided by the leaders of the industry.

Recognising your company's esteemed position in the chemical industry, we are eager to invite your company to be a part of this event. We are seeking input for problems that are currently relevant in your company and strive to find transformative solutions for them.

The solutions given to these statements will be judged by an expert from your company itself, so that you can get solutions that best benefit your company.

We understand the demands of your time and appreciate your contributions in making this event a success. Your participation will inspire the participants and also show the company's commitment to innovation and sustainability.

DETAILS

We expect you to provide:

- Problem statement(s) for Sr. IDP that is relevant to your company.
- A monetary sponsorship of Rs. 50,000/- per problem statement to provide for the winners of this competition.
- **The Company can avail of tax deductions by partnering with Vortex. The benefits of our association can be availed under section 80G of the Income Tax Act (100% tax deduction).**

If you are interested in partnering with us, we would like to inform you more about the event:

- The event is going to be held in January.
 - 4–5 teams will be competing in this event.
 - Industrial experts from your company will judge the solutions provided by the participants and select the winners.
 - The participants will submit a 2-page executive summary, a report containing detailed solution to the problem statement, with references and appendices.
- There will be a 10-minute PowerPoint presentation by the participants followed by a Q&A by the judges.
